SUPPLEMENT TO
REPORT NO.

25X1X

On 26 January 1953 SAG Marten Walzwerk fuer Buntmetalle, Kupfer- und Messingwerke, Hettstedt, sent a form letter to V&B LKM Kesselbau Neumark cancelling orders for boiler plate. The explanation given for the cancellation was that rolling mill train I at the plant was overloaded with orders and that Hettstedt could not therefore fulfill the accepted orders during the first quarter of 1953. The rejected orders, along with all correspondence concerning them, were forwarded at the direction of the Marketing Department of the Ministry of Mining and Smelting to DHZM, Berlin, Krausenstrasse. DHZM is then to attempt to fulfill the original order from imports.
